

# NANOVED 2007

Bratislava  
Slovakia

November 12 - 15, 2007

International Conference devoted to the presentation of current trends and achievements in the field of nanoscience, nanotechnology, nanomaterials and to their applications in diverse fields of materials science, physics, electronics, chemistry, biology, medicine, etc.

Important part of the NANOVED 2007 conference will be devoted to activities stimulating creation of interdisciplinary teams focused on research in the field of nanoscience with the aim of formation of consortia potentially applying for projects within the 7FP of EU. A workshop devoted to discussion and preparation of joint activities within 7th FP EU (priority 4 - NMP) and Young Researchers' workshop including awarding of best oral and poster presentation will be a part of the NANOVED conference.

Participation of scientists, especially younger scientists (including Diploma and PhD students, Postdocs) is encouraged.

#### Program:

The program will consist of invited and contributed lectures and of poster sessions. The participants will have the opportunity to listen to lectures of internationally renowned scientists and to have lively discussions with them. Furthermore, young scientists are encouraged to present their own work in the form of posters during the workshop.

#### Venue:

All conference activities including meals will take place at the SUZA facility in Bratislava: SUZA, Drotarska cesta 46, 811 04 Bratislava, Slovakia
